Joshua Previlon

Full-Stack Engineer | React and TypeScript

Miami-Fort Lauderdale, FL | joshua@duorya.com
linkedin.com/in/jprevilon | github.com/JPrevilon | jprevilon-portfolio-me.vercel.app

Software engineer building React and Next.js applications with Node.js/Express APIs, PostgreSQL, and authentication. Seeking full-time full-stack roles; open to Miami, New York, and US remote opportunities.

TECHNICAL SKILLS

Back end: Node.js, Express, PostgreSQL, REST APIs, authentication, Socket.IO, Python, Flask, SQLAlchemy
Front end: React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS
Tools: Git, GitHub, Vite

EXPERIENCE

Duorya | Founder & Full-Stack Software Engineer (Freelance) 2026 - Present

- Built and launched Aeterna Spa's responsive HTML, CSS, and JavaScript website with treatment tabs, comparison sliders, and enquiry form validation.
- Developed Deer Creek's multi-page website preview with a Vite build, canvas/video transitions, and mobile and reduced-motion navigation fallbacks.

Pulse Interactive | Front-End Engineer (Self-employed) | Source Nov 2024 - Nov 2025

- Built React/TypeScript city-discovery screens with API-fed venue cards, upcoming streams, and refreshed venue rankings.
- Connected venue watch pages to Amazon IVS playback and Socket.IO events for chat, reactions, and live viewer counts.
- Built Node.js/Express APIs with PostgreSQL models and JWT-protected routes.

White Sapphire | Web Developer (Self-employed) 2020 - 2024

- Created websites and web pages for businesses, artists, and creators based on their content and audience goals.
- Planned and produced promotional content and publishing schedules for YouTube, Twitch, and Kick.

SELECTED PROJECTS

GrapeVyne | Live application demo (sample wine catalog) | Demo | Source

- Built a React/Vite frontend and Flask/SQLAlchemy API for PostgreSQL-backed wine collections.
- Implemented session-based authentication and user-scoped collection CRUD operations.

Mark the Shark | Website Preview | View site

- Built a Next.js, React, and TypeScript charter website preview with responsive navigation and a category-filtered gallery.
- Implemented a canvas hero with device-specific media and reduced-motion fallbacks, plus a keyboard-operable gallery lightbox.

EDUCATION

St. John's University | Bachelor of Science in Computer Science 2016 - 2018
Nassau Community College | Associate of Science in Computer Science 2014 - 2016

ADDITIONAL EXPERIENCE

Sony Music Entertainment | Music Producer - Production Deal (Contract) 2017 - 2020
Republic Records | Intern (Internship) 2016 - 2017
